## FASHION DESIGNER

Fashion is a form of self-expression. We can tell the whole world about our personality just by the type of clothes we wear. Fashion provides us with a creative outlet that we can constantly change and improve. It also gives us confidence.

# ACKNOWLEDGEMENT

**I express my sincere thanks to all my teachers for their support and direction, and my genuine gratitude to Just Design Institute who gave me an opportunity to show my abilities by working on this project. I would like to extend my gratitude to the Director Ma'am "Mrs. Renu Bhargav" for providing me with all the facility that was required. Last but not the least, I would like to express my gratitude towards my parents for their kind co-operation and encouragement which helped me in the completion of this course.**

# DISTRESSED DENIM

Distressed style was taken from the British punk and adapted to American youth's desire for rebellion. We look at their origin, popularity and modern adaptation. Distressed jeans, which became hugely popular during the late '70s.

In this collection, as the name suggest "Distressed Denim", I have used denim swatches to make base fabrics for bottom and crepe viscose for the tops. Silhouettes used in this are casual wear.

Color palettes used in these garments are brighter color for bottom wear and lighter color for tops.
